COMPANY PROFILE

About Us

Established in 2006, **KHATEEM INTERNATIONAL** is a trusted manufacturer and global supplier of high-quality surgical instruments. With nearly two decades of experience, we have earned a solid reputation for precision, durability, and innovation in the healthcare industry. Based in Sialkot, Pakistan, our facilities combine state-of-the-art technology with skilled craftsmanship to deliver instruments that meet the most rigorous international standards.

Our Mission

To enhance surgical outcomes by providing healthcare professionals with reliable, safe, and superior-quality surgical instruments, backed by consistent innovation and customer-centric service.

Our Vision

To be recognized as a global leader in surgical instrument manufacturing by driving excellence, innovation, and ethical business practices.

What We Offer

We specialize in the design, Best Quality manufacture, and export of:

General Surgical Instruments

Orthopedic Instruments

Ophthalmic Instruments

Plastic Surgery Instruments

Dental Instruments

ENT Instruments

Gynecology Instruments

Cardiovascular Instruments

Neurosurgery Instruments

Custom-designed Instruments, OEM available and all sizes are available.

All products are manufactured using premium-grade stainless steel and undergo strict quality control processes to ensure accuracy and performance.

Quality Assurance

We are committed to quality and compliance. Our manufacturing processes are certified under ISO 9001, ISO 13485 CE Mark, Standards. Every instrument is meticulously inspected and tested for functionality, durability, and safety.

Global Reach

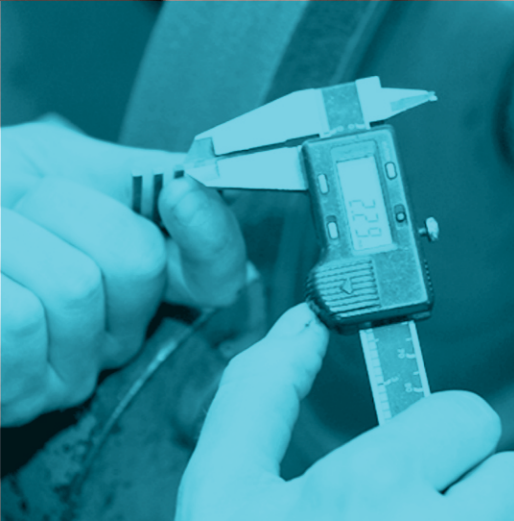

Over the years, we have established long-term partnerships with hospitals, surgical centers, distributors, and OEM clients across North America, Europe, the Middle East, and Asia. Our ability to deliver customized solutions and on-time delivery has made us a preferred partner worldwide.

Why Choose Us?

Over 20 years of industry experience Precision-engineered instruments ISO 9001, ISO 13485, CE, a certified. Competitive pricing with no compromise on quality. Customer first approach. Fast turnaround and reliable global shipping All products will be rust free guaranteed and if any damaged during shipping we will change 100% free at your door step.

Sustainability & Ethics

We operate responsibly, ensuring ethical labor practices, eco-conscious production, and sustainable sourcing of materials. Our team is dedicated to continual improvement in both social and environmental impact.

CORPORATE GOAL

To be the market leader in manufacturing world's finest Surgical & Dental Instruments, at the most competitive prices.

Never compromise on Quality!

During the initial years of our formation, we worked hard to precisely understand the requirements of our respected customers, which has gradually improved over time. As our guiding philosophy, we put the concepts of "Customer First" and "Quality First" into practice, to respond to the expectation of our customers.

QUALITY ASSURANCE

Our commitment to the quality ethics and performance of all our instruments is demonstrated by our accreditation to the International quality assurance standards of ISO 9001:2008, ISO 13485:2003, cGMP & CE.

GUARANTEE

Our guarantee is your complete satisfaction.

We take great pride in our reputation for manufacturing "consistent" quality instruments as per our customer's requirements. We offer our customers a complete guarantee when it comes to the workmanship and materials of all our products.

R&D

Our company take R&D as a continuing driving force for the research and development of our Instruments. Our company is well equipped with in-house R&D department, with state of the art machinery, where every piece is put through stringent tests before its final assembling. It provides us ample scope to adapt the needs of our valued clients.

CHILD LABOR POLICY

As good corporate citizens and most importantly as a matter of social responsibility, we are committed to the ideas of protecting children from the exploitations of child labor. We strongly believe that the future growth of children, of their communities and the country as a whole is best served through education, not child labor.

REPAIR & RESTORATION

We offers complete surgical and dental instruments repair and restoration service, utilized in all kinds of operating procedures at very competitive rates.

Our services include, but are not limited to, complete set restoration, instrument customization, gold plating, laser/chemical etching, coding, final finishing, Re-Polishing and most importantly the functional performance of an instrument and its aesthetic appearance.

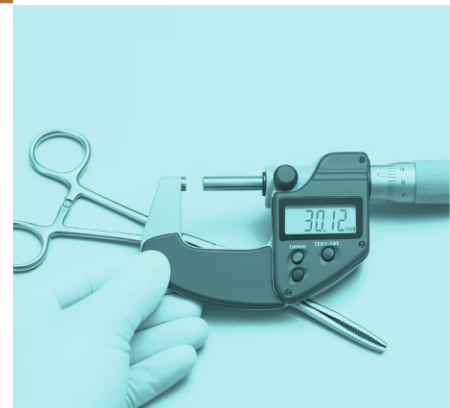

OEM MANUFACTURING

We not only manufactures fine quality surgical instruments, but we also provide complete modification and customization of instrument design according to its specific usage. All OEM instruments are carefully hand crafted with details to guarantee quality and exact specifications.

We can work pretty much on anything, from physical samples to hand drawn sketches, high precision 3D CAD models and drawings.

Our experience and knowledge in hand crafting surgical and dental instruments, combined with modern engineering capabilities, allow us to adopt the finest techniques to apply to each product, to accomplish the outcomes our customers require.

Simcoe

Irrigating-Aspirating Cannula
Original model, with aspiration
Through tubing hub and irrigation
Through luer-lock hub. 23 gauge
Thin wall, 15mm long curved
Tubes, with 0.3mm dia. Aspirating
Port facing into curve and slightly
Shorter irrigating tip with 45°
Angled front opening. Designed
For true Simcoe I/A technique.

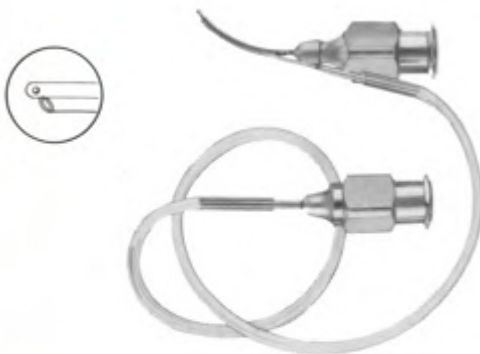

IAC-1248

Swiss

Irrigating-Aspirating cannula
for aspiration through tubing hub
and irrigation through luer-lock
hub. 23 gauge thin wall, 15mm long
curved tubes, 0.3mm dia. Port on left
side of aspirating tube. Slightly
angled front opening.

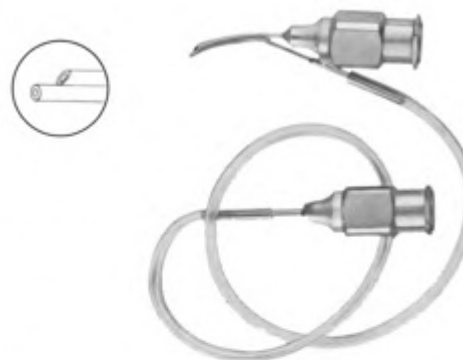

IAC-1249

Reversed simcoe

Irrigating-Aspirating Cannula
Same as K7-4300 but tubes reversed.
For surgeons who like the simcoe I/A
Cannula, but prefer to use a more
conventional technique of aspirating
through the luer-lock hub cannula.

IAC-1250

Ambrosio

Irrigating-Aspirating
Cannula For aspirating
through tubing hub and
irrigation through luer-lock
hub. 23 gauge thin wall,
15mm long, curved,
front openings.
